PROFESSIONAL SUMMARY

Data Analyst and Database Administrator with 5+ years of computer science background, specializing in building production grade data pipelines, cloud data architectures and ETL/ELT workflows for enterprise clients. Deep hands-on expertise with Azure, Python automation, SQL, databases management of PostgreSQL, Oracle, SQL Server, MySQL, MongoDB, and containerized environments. Proven ability to own end-to-end data initiatives, from architecture to deployment, including cloud migrations with zero downtime. Experienced working collaboratively within Agile/DevOps teams.

CORE COMPETENCIES & TECHNICAL SKILLS

DBA: PostgreSQL, Oracle, SQL Server, MySQL, MariaDB, MongoDB, SQL/PL/SQL, tuning, execution plan analysis, indexing
Data Engineering: data workflows, Python data processing, data quality & observability automate database operations
Data Pipelines: SSIS ETL design/management; automation; ETL/ELT workflow development; data source integration;
Cloud: Microsoft Azure, Azure SQL, Azure Monitor, Azure DevOps, DMS, AWS RDS, Aurora, EC2, CloudWatch, DMS;
Scripting: Python (data automation, monitoring, alerting, pipeline tooling), Bash/Shell scripting, Cronjob, Ansible, reporting
Data Warehousing & Modelling: Relational data modelling, schema design, normalization, cloud storage solutions; Power BI
Data Security & Governance: RBAC, TDE encryption, compliance/audit reporting, data access controls; data governance
DevOps: Git, Jenkins, CI/CD pipelines; automation and orchestration of database and data workflow processes; Agile/Scrum
Monitoring: Nagios, Azure Monitor; database health, incident triage, root cause analysis; SLA management, data reliability

PROFESSIONAL EXPERIENCE

Data Analyst / Database Administrator | Societe Generale | March 2023 – Present

- Built and maintained production-grade ETL/ELT pipelines integrating diverse data sources across Azure SQL, ADLS, Azure Blob Storage, Oracle, PostgreSQL and MongoDB, processing relational and unstructured datasets.
- Owned end-to-end cloud migration initiatives: architected and executed zero-downtime legacy Oracle/SQL Server migrations to Azure SQL and PostgreSQL (10 GB-2 TB+ workloads), leading all phases from schema design through validation and cutover.
- Developed Python and Bash automation scripts for data ingestion, transformation, monitoring, and alerting, eliminating 15+ hours/week of manual operations and increasing pipeline reliability.
- Optimized workloads for performance, cost, and fault tolerance: tuned SQL queries, partitioned large tables, optimized indexing strategies, and implemented storage tiering, achieving 30% query performance improvement.
- Containerized and deployed data workloads using Docker and Kubernetes; coordinated CI/CD pipeline implementation with Git, Jenkins, and Azure DevOps for automated, repeatable data deployments.
- Administered 100+ databases on Linux/Cloud environments with high availability design (Oracle RAC, Data Guard, PostgreSQL Repmgr+Pgpool-II, SQL Server AlwaysOn) ensuring data reliability for financial workloads.
- Enforced data governance, lineage documentation, RBAC access control, and compliance in a regulated banking environment; ensured data quality and observability across all pipelines.

Database Administrator | Corporate Software | Jul 2022 – Dec 2022

- Administered Azure SQL databases, implemented LDAP authentication with CI/CD, git, jenkins and AZ DevOps.
- Built backend RESTful APIs and handled CRUD operations using Java Spring Boot, SQL server DB and Angular.

Database Administrator | BC Skills Group | July 2021

- Designed PostgreSQL relational schemas, optimized SQL queries, and built Power BI dashboards reducing reporting effort by 25%; contributed DevOps best practices in an Agile/Scrum team.

KEY PROJECTS

- Architected HA and deployed 2 nodes PostgreSQL cluster with Repmgr replication and Pgpool automatic failover.
- DBA Ansible for automating Installation, high availability, backups, monitoring databases on Linux and cloud.

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate** - Microsoft, 2024
- Oracle Cloud Infrastructure Data Management Professional** - Oracle, 2024
- AWS Fundamentals** - Amazon Web Services, 2023

EDUCATION

Master Degree - Computer Science | Moroccan School of Engineering Sciences | 2020-2023

Associate Degree - Computer Science | Higher School of Technology, Cady Ayyad University | 2017-2020
